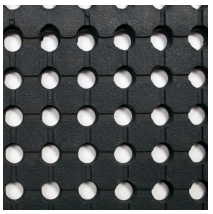
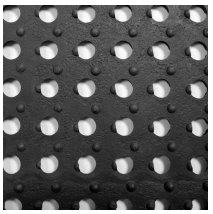
PRM rubber mat roll MR12

R9 anti-slip rubber mat in rolls, PRM compliant



Top side



Underside

Roll length	Thickness	Weight
10 m	**10 mm**	**8.81 kg/m²**

BENEFITS

- Thermal and acoustic insulation
- Draining effect, water drains away continuously
- Easy maintenance
- Anti-fatigue effect
- Installation without adhesive or tools
- R9 anti-slip surface

01 Technical specifications

GENERAL SPECIFICATIONS

Composition	100% natural rubber
Thickness	10 mm
Weight	8.81 kg/m²
Colour	black or blue
Structure	perforated, studded underside
Openings	less than 20 mm
Installation	no adhesive or tools, self-weighted roll

Underside

03 Description

Natural rubber mat supplied in 10 m rolls, designed to make pedestrian areas safe. It can be cut freely to the required length, making it the right solution for non-standard layouts. Its openings of less than 20 mm make it compliant with PRM requirements.

Dimensions and weights are indicative, tolerance ± 5%.

INSTALLATION TIPS

- Choose the width to suit the layout: 60 cm (narrow), 91 cm (standard), 183 cm (wide)
- Always secure the ends with a threshold strip or an aluminium profile, to prevent the edges from lifting when trolleys pass over
- Can be cut freely to the required length

POINTS TO WATCH

- Not suitable for very heavy use
- Heavy rolls (up to 161 kg): please plan for suitable handling
