

SADDLERY

THE IDM WORKSHOP

Custom manufacturing
agile and responsive

Made in our
workshops in Savoie

+500,000 parts
produced since 1993

STANDARDISED SADDLERY

Our standard references are designed to directly replace original manufacturer parts. Compatible with all chairlift brands on the market, they install without modification and offer a quality alternative, manufactured in our workshops in Savoie.

Cécile at the helm since 2009!

When you push open the door of our workshop in Porte-de-Savoie, the first thing you hear is the machine. The steady rhythm of an overlocker, the rustle of the fabric being unrolled. At the end of the table, Cécile. More than fifteen years at the helm. Fifteen years spent cutting, assembling and sewing every seat, every chairlift backrest that leaves our premises. Not a single part leaves the IDM premises without passing through her hands. Ropeway saddlery is not off-the-peg work. Every model has its own dimensions, its own fixings, its own constraints. It is unrivalled expertise that we protect and defend. More than 500,000 parts have come out of our workshop over the years.

All designed, cut and sewn here, in Savoie. Behind every order there is a table, a machine, someone who knows their craft, and a real person to thank.

CUSTOM SADDLERY

Our custom references are designed from your dimensions, a drawing or a sample. Suited to old or atypical installations or to specific requests (fabric, foam, embroidery), they are made by hand in our workshops in Savoie.

ORIGINAL

WITH IDM

REPLACEMENT SEATS AND BACKRESTS

Replace the saddlery on your old Hakolit foam or slatted seats with a modern, robust solution that is compatible with the existing fixings.

FIXINGS IDENTICAL TO THE ORIGINAL POINTS

IDM becomes a mission-driven company

After four years of continuous work and commitment, this initiative is now becoming a reality. This year, IDM becomes a mission-driven company and officially incorporates social and environmental objectives into its corporate statutes.

This approach reflects our determination to act alongside ski resort operators as a partner in transition, developing solutions that are practical, effective and aligned with the challenges facing mountain regions

ecovertisbyidm.com

Corporate purpose

To promote an agile and sustainable trading model, rooted in proximity, to support the transition of local territories.

More than 300 tonnes of CO₂e saved with Ecovertis®
